TruStain Maintenance Instructions – Siding

- *Dirt can be removed with a soft brush*
- *Use a mild detergent applied with a brush or sponge for cleaning followed by a gentle stream of water to rinse*
- *A pressure washer (with mild detergent) will work provided the fan is greater than 2 feet at the point of contact with the surface*
- *Spot repairs/ stain removal can be accomplished by lightly sanding the surface with a coarse sand paper (18 grit) and brushing (feathering) in some additional TruStain*
- *Organic particulate should be removed as quickly as possible to avoid staining*
